

LIFE SCHOOL LANCASTER

From the Principal...

September 8, 2011

Responsibility is our character trait this six weeks, and I hope you will take time to speak to your child(ren) over dinner or in the car ride home about what being responsible means. Thus far, we have discussed learning the classroom procedures and expectations, not making excuses and using self-control. While this year has only been in session for four weeks, I have seen growth in our students and leaders beginning to rise up in each classroom. Continue to partner with us in our quest to develop excellent character in each Life School Lancaster Bear. Have a great weekend!

Mr. Parker

The Nurse's Station

Most sore throats are caused by viruses, like ones that cause a cold or the flu. Some sore throats, like strep throat, are caused by bacteria. A test is necessary to determine if a sore throat is strep throat. Your student may need to see their physician if:

- Sore throat lasts longer than a week
- Difficulty swallowing or breathing
- Temperature higher than 100.4 degrees F
- Puss on the back of the throat
- Rash
- Hoarseness
- Recurring sore throats
